## REVOLVE RANGE TARGET SYSTEM

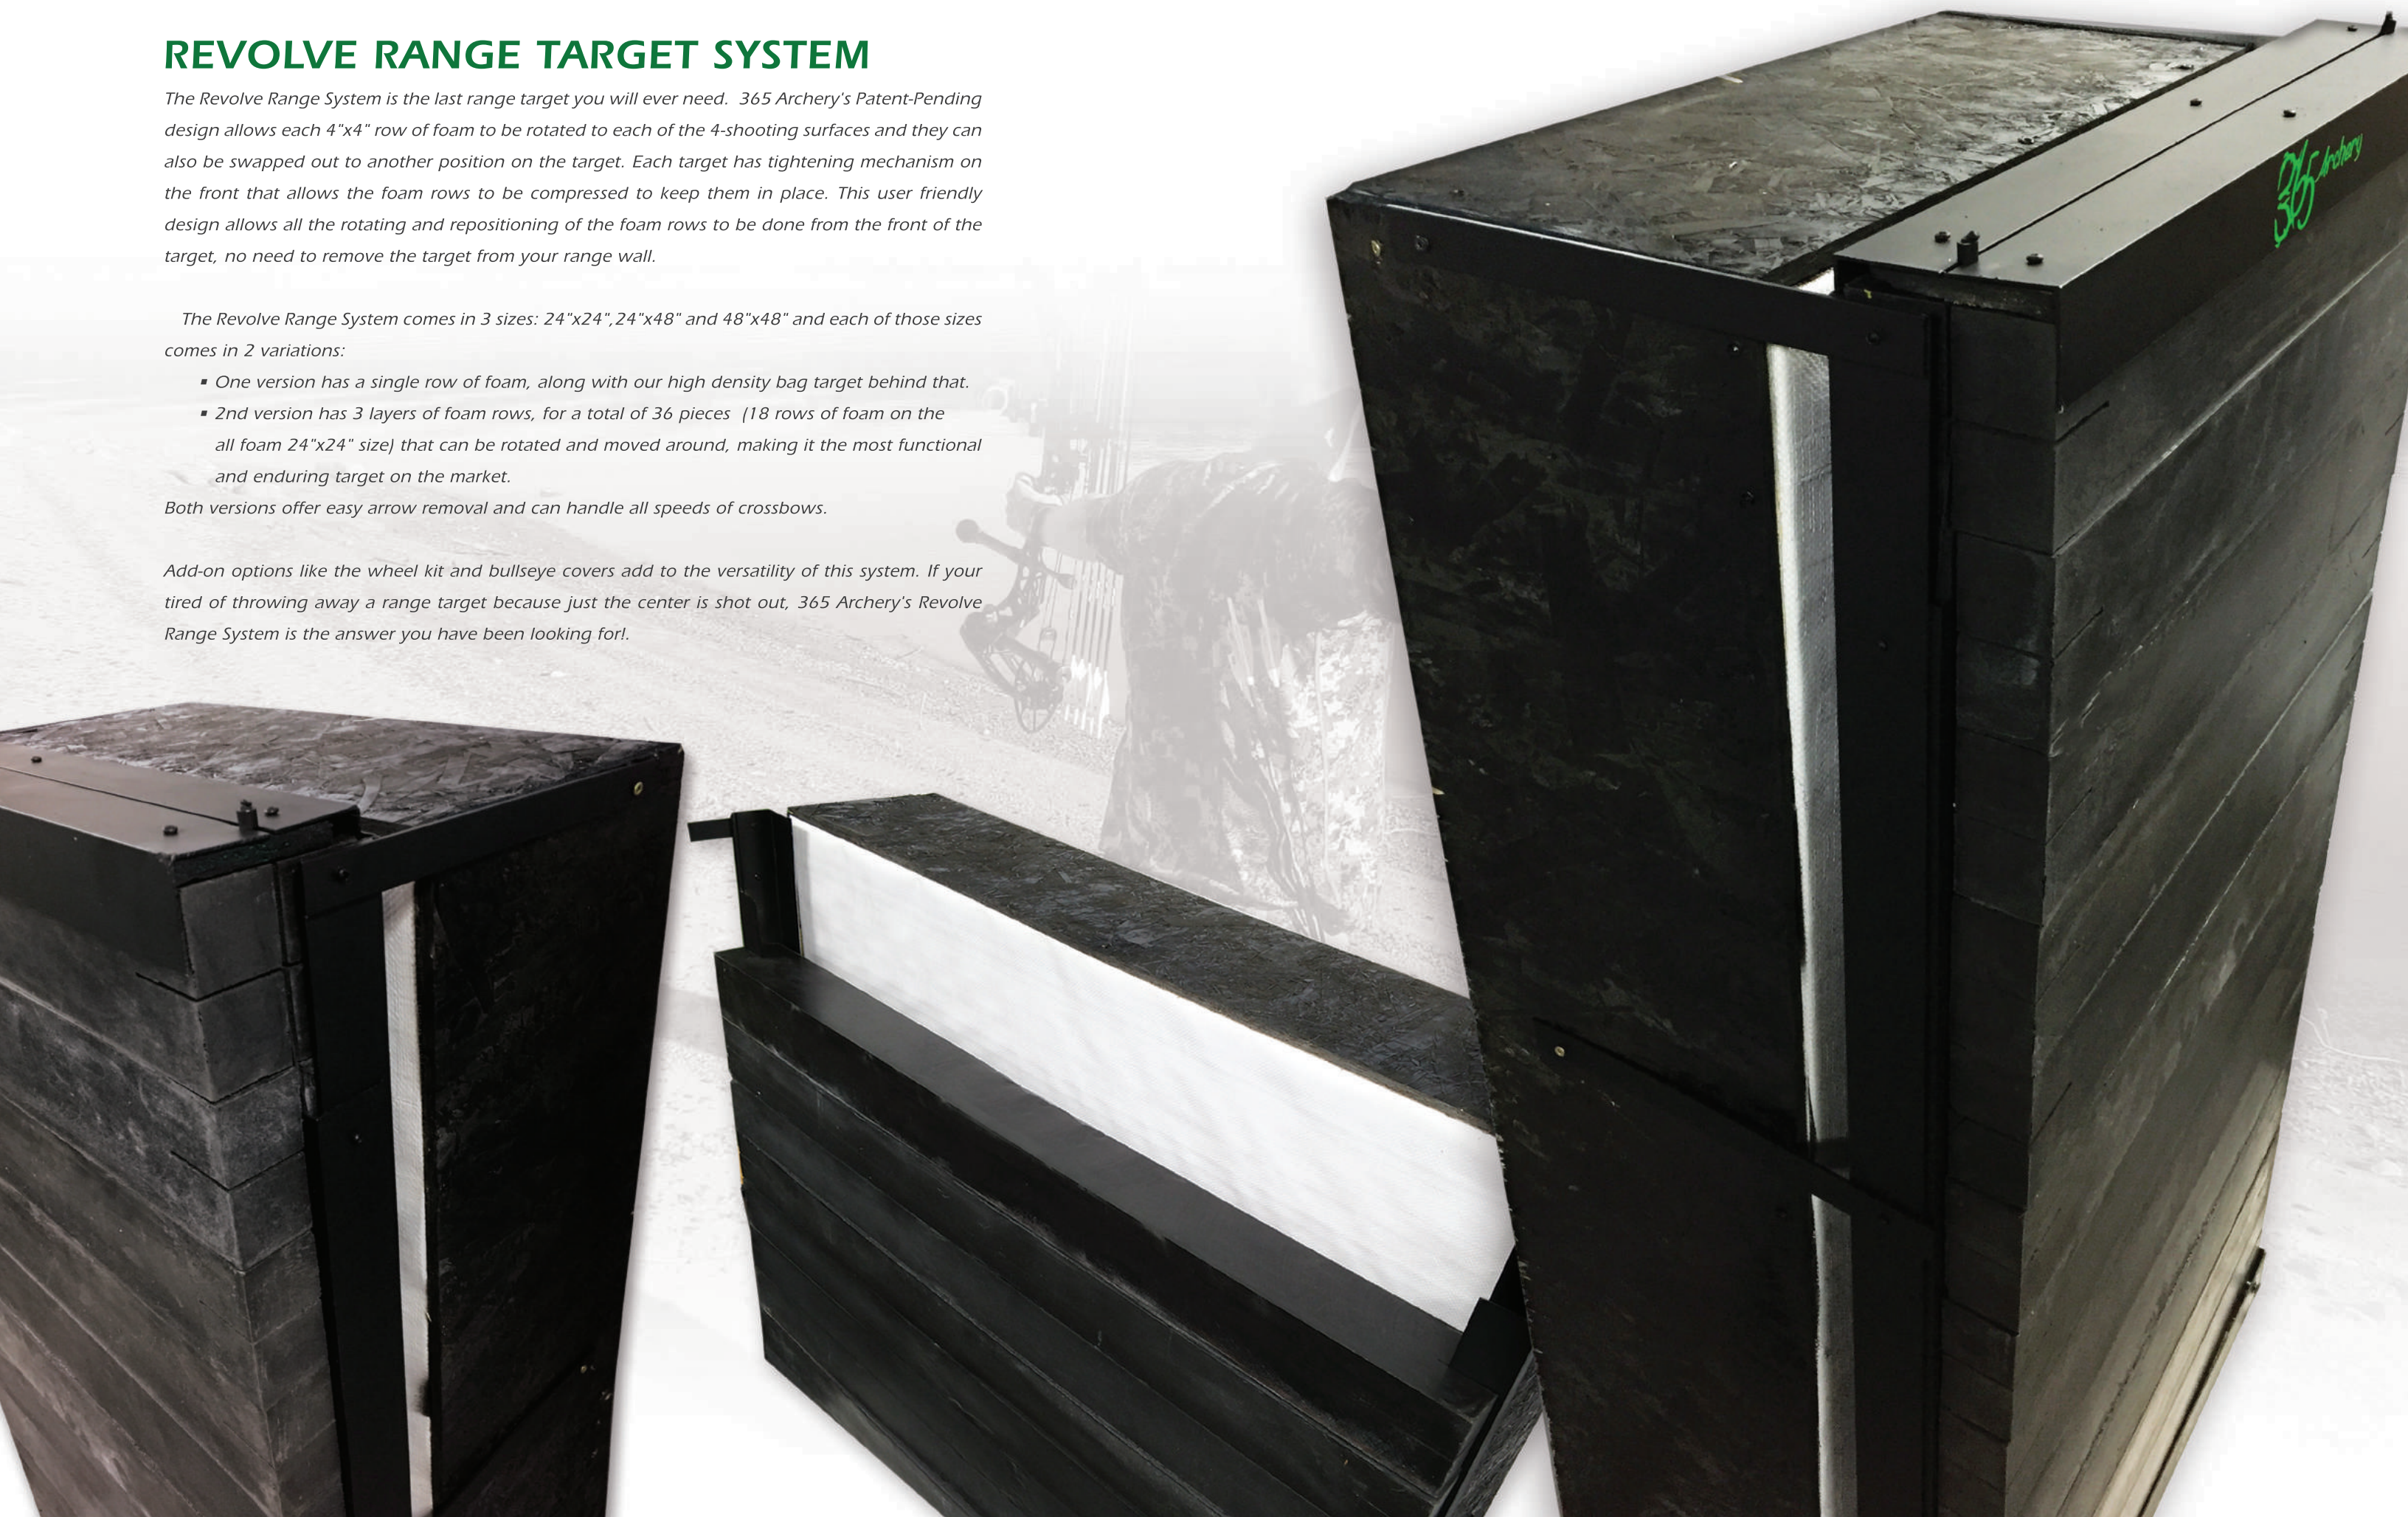

The Revolve Range System is the last range target you will ever need. 365 Archery's Patent-Pending design allows each 4"x4" row of foam to be rotated to each of the 4-shooting surfaces and they can also be swapped out to another position on the target. Each target has tightening mechanism on the front that allows the foam rows to be compressed to keep them in place. This user friendly design allows all the rotating and repositioning of the foam rows to be done from the front of the target, no need to remove the target from your range wall.

The Revolve Range System comes in 3 sizes: 24"x24", 24"x48" and 48"x48" and each of those sizes comes in 2 variations:

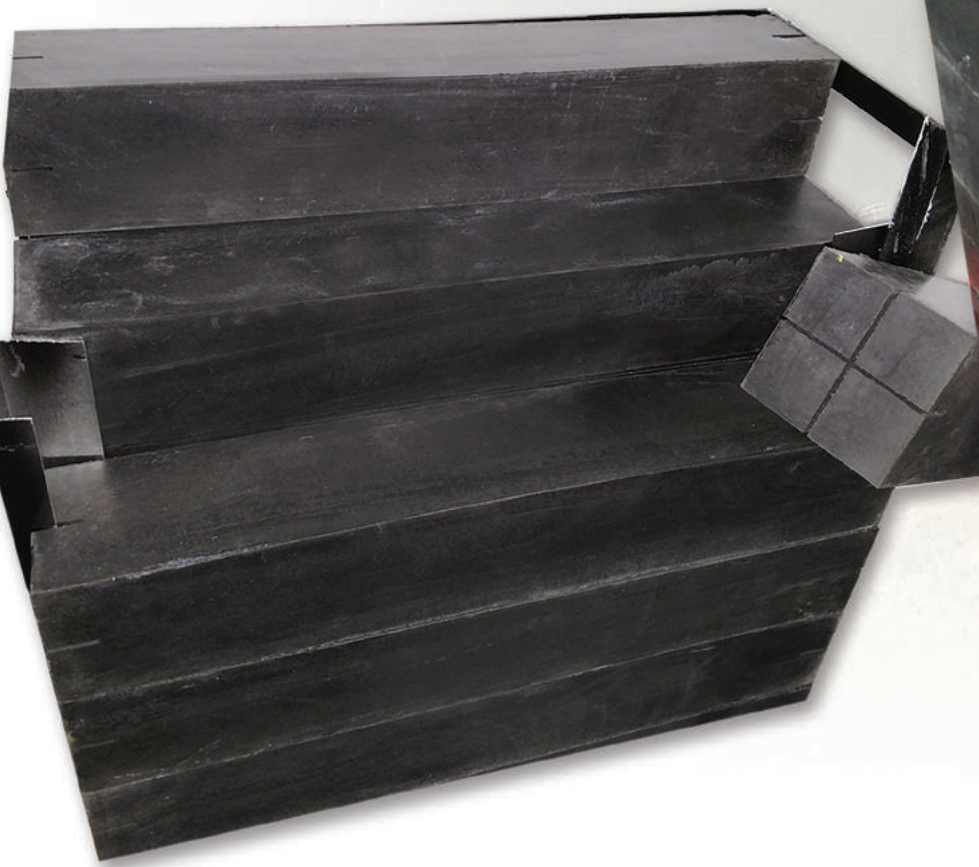

- One version has a single row of foam, along with our high density bag target behind that.
- 2nd version has 3 layers of foam rows, for a total of 36 pieces (18 rows of foam on the all foam 24"x24" size) that can be rotated and moved around, making it the most functional and enduring target on the market.

Both versions offer easy arrow removal and can handle all speeds of crossbows.

Add-on options like the wheel kit and bullseye covers add to the versatility of this system. If your tired of throwing away a range target because just the center is shot out, 365 Archery's Revolve Range System is the answer you have been looking for!

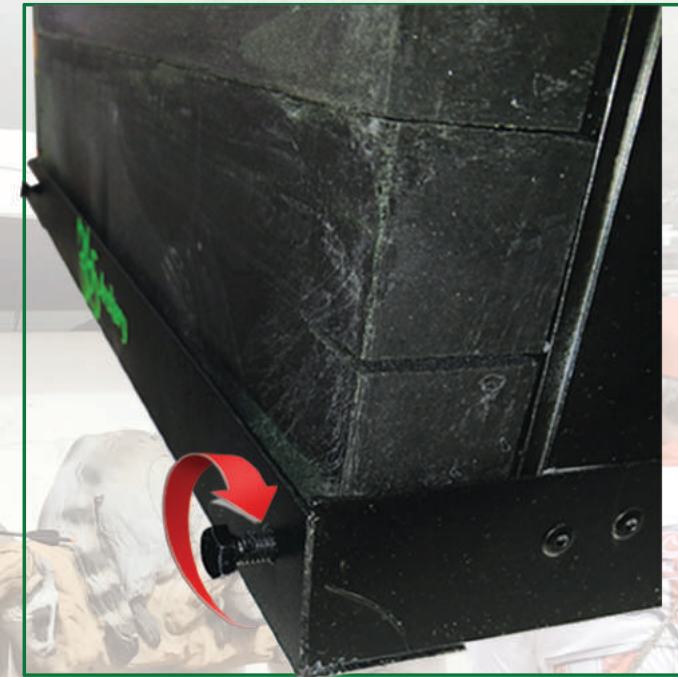

*Revolve Range Target features  
a patent-pending 4x4 foam  
blocks design*

**Adjustable Bolt System**

*Turning the bolts clockwise will draw the lid  
down, which applies pressure to rows of foam*

**Revolve Range System Accessories**

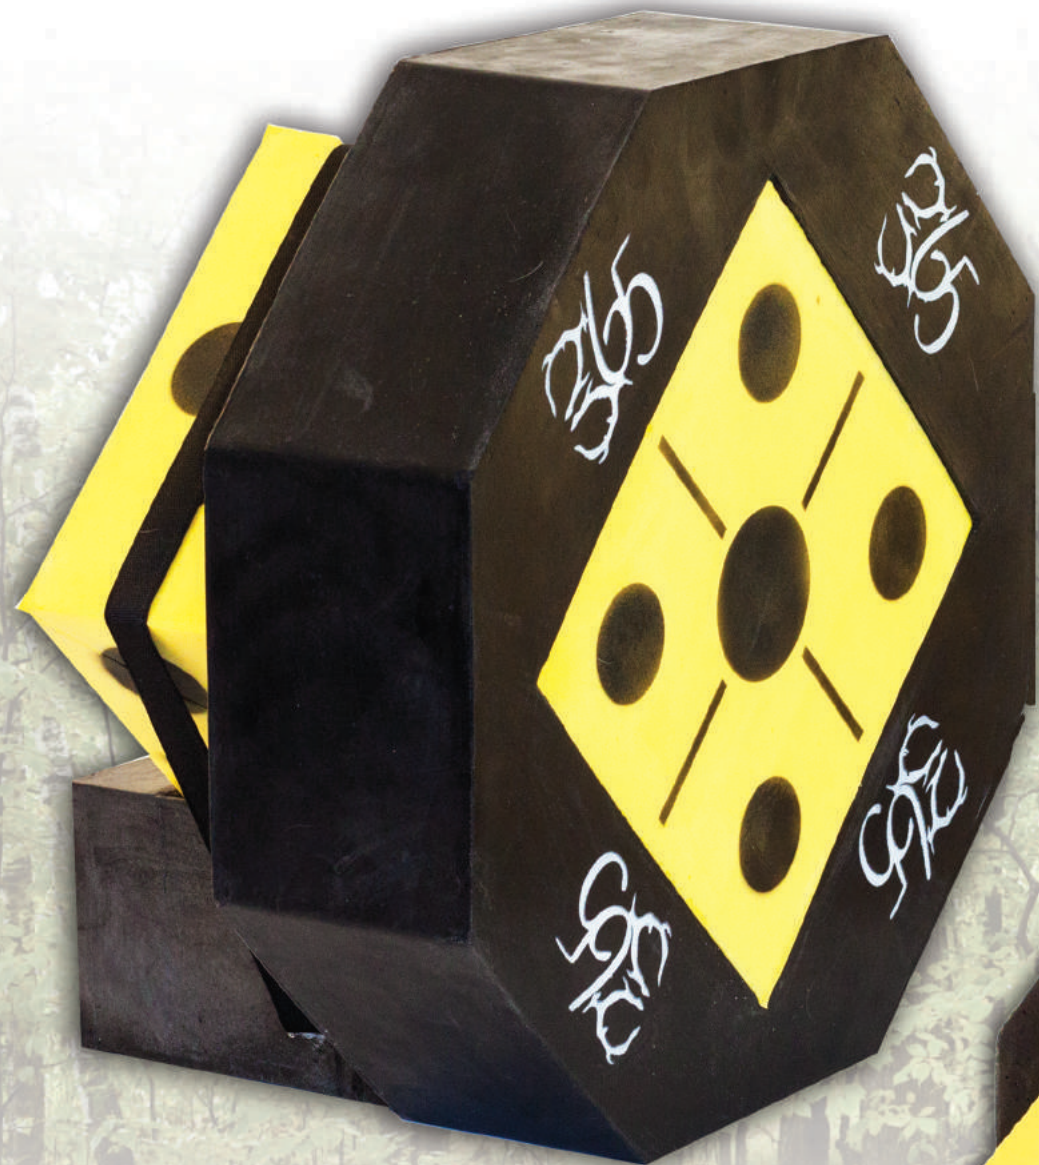

*Optional Castering Wheels*

*Interchangeable Target Bag Covers*

## TRIO TARGET SYSTEM

3 PIECE ASSEMBLY

### THE LAST TARGET YOU WILL EVER HAVE TO BUY

*This will be the last archery target you will ever have to buy. 365 Archery's patent-pending design incorporates a novel center core cube that allows the archer to utilize all six sides of the center core before replacing it! Unlike other targets that typically can only be shot on two sides, our target can be shot on all six sides!*

- The 365 Archery proprietary "Self Sealing" foam provides for superior stopping power even for crossbow bolts.
- The outer target cradle that contains the center core, provides for an increased target arrow area providing additional safety for errant shots and reducing or eliminating the need for additional back stops!
- The targets come with a core support base providing additional target support and allows the target to be shot without anchoring the target to the ground!
- When the six sides have been shot out, you can simply purchase a new center core at a fraction of the price of most typical targets on the market!

### AVAILABLE IN 4 POPULAR SIZES

48" DIAMETER

36" DIAMETER

24" DIAMETER

18" DIAMETER

## 48" 5-CORE TARGET

365 Archery's High Performance 5-Core Target has 5 removable cores, that can be rotated to utilize all 6 shooting surfaces. 365 Archery's proprietary "self healing" foam provides superior arrow stopping power for all bows and crossbows, with easy arrow removal. This 48 inch target is the perfect answer for multiple archers, as it allows each person to have a separate target. The HP 5-core target comes with a support base, providing additional support and allows the target to be shot without anchoring it to the ground. When all 6 sides of a core are shot out, you can simply purchase a new center core at the fraction of the cost of most typical targets on the market!

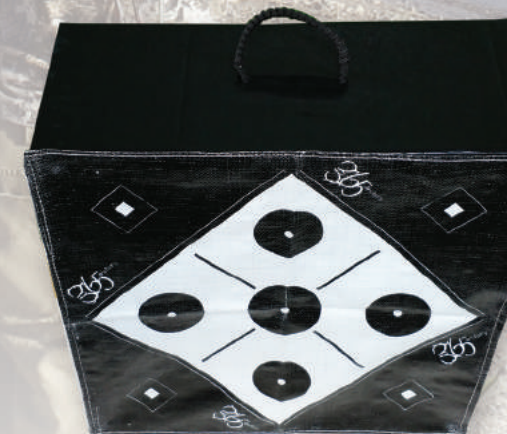

## CROSSBOW DISCHARGE / CAMP TARGET

365 Archery crossbow discharge target and camp check target offers a log of stopping power in a small package. You can either set it on the ground or tie it to a branch or fence with sportsman wire attached to it to shoot it.

## 365 BAG TARGET

365 Archery Bag Targets are constructed with advanced materials for maximum target life without pass throughs. High contrast graphics are easy to see especially at long ranges. Built in heavy duty handle for easy, convenient transport. Available in 24"x24", 24"x48" and 48"x48".

### AVAILABLE IN 3 POPULAR SIZES

48x48" Bag Target

24x48" Bag Target

24x24" Bag Target

Crossbow approved speed rating of 450fps+  
Field tip use only

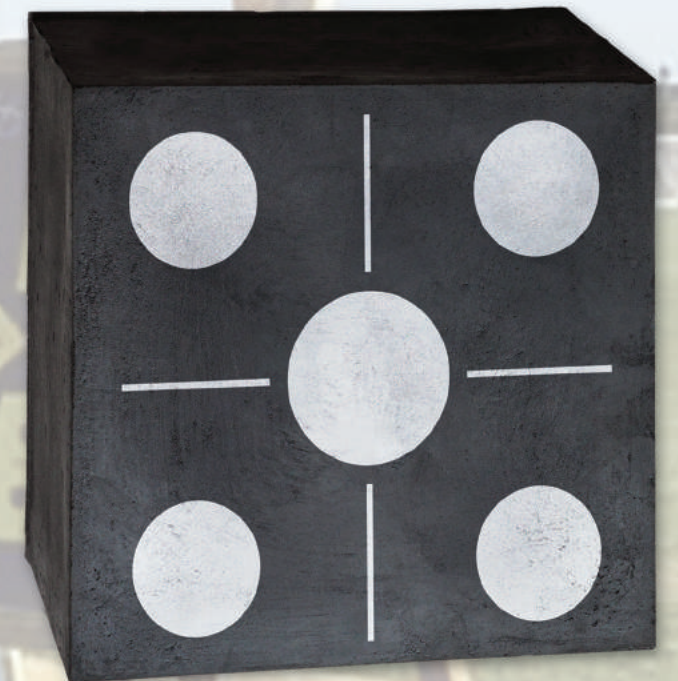

## 52" SQUARE 5-CORE TARGET

The 52" 5-core XL target was designed for archery clubs and ranges who are looking for an all foam target that will last several tournaments and yet offer easy arrow removal. Each of the 4-14" and 1-10" yellow cores are replaceable and can be rotated to the 6 shooting surfaces. 365 Archery's "self healing" proprietary foam will withstand the abuse of several tournaments before the yellow cores will need to be replaced at a fraction of the cost of a new target.

## SAFARI DOT CORE

The Safari Dot Cube Target was designed for the popular 3d shoots that utilize an orange dot as the scoring bullseye. Each size Orange dot is meant to be shot at a certain distance: 20cm (100 yards), 13cm (61-88 yards), 10cm(31-60 yards) 7cm (20-30 yards)and 4cm (4-19 yards) This Safari Cube is a must for anyone who is practicing for these style shoots.

## CROSSBOW TARGET

365 Archery's crossbow target is a field tip only target that will stop all the high speed crossbows on the market and yet offer very easy arrow removal.

## 14" CUBE STAND ALONE TARGET

365 Archery also offers a traditional 6 sided cube target that is 14"x14"x14" with the same foam stopping power of our Trio Target System.
